A table reconciling the GAAP to the non-GAAP results (which excludes the items described under "Non-GAAP Financial Measures and Adjusted EBITDA" below) is appended to this news release.

"We're pleased to deliver another solid quarter," said Jim Bidzos, Executive Chairman, President and Chief Executive Officer.

Non-GAAP Financial Measures and Adjusted EBITDA

Verisign provides quarterly and annual financial statements that are prepared in accordance with generally accepted accounting principles (GAAP). Along with this information, management typically discloses and discusses certain non-GAAP financial measures in quarterly earnings news releases, on investor conference calls and during investor conferences and related events. These non-GAAP financial measures do not include the following items that are included in the comparable GAAP financial measures: stock-based compensation, non-cash interest expense through June 30, 2018, and loss on debt extinguishment. Non-GAAP net income is adjusted for an income tax rate of 22 percent which differs from the GAAP income tax rate.

On a quarterly basis, Verisign also provides Adjusted EBITDA. Adjusted EBITDA is a non-GAAP financial measure and is calculated in accordance with the terms of the indentures governing Verisign's senior notes. Adjusted EBITDA refers to net income before interest, taxes, depreciation and amortization, stock-based compensation, unrealized gain / loss on hedging agreements, gain on the sale of a business, and loss on debt extinguishment.

Management believes that these non-GAAP financial measures supplement the GAAP financial measures by providing investors with additional information that allows them to have a clearer picture of Verisign's operations and financial performance and the comparability of Verisign's operating results from period to period. The presentation of these non-GAAP financial measures is not meant to be considered in isolation nor as a substitute for financial measures prepared in accordance with GAAP.

The tables appended to this release include a reconciliation of the non-GAAP financial measures to the comparable financial measures reported in accordance with GAAP for the given periods.
