- Operating Cash Flow of \$180M

- 874 Full-Time Employees at March 31, 2020⁽³⁾

- 1) Net income for the first quarter of 2020 included the recognition of \$168 million of previously unrecognized income tax benefits. This resulted from remeasurement of Verisign's accrual for uncertain tax positions based on IRS written confirmation indicating no examination adjustment would be proposed related to its audit of the worthless stock deduction taken in 2013. Notwithstanding this written confirmation, Verisign's U.S. federal income tax returns remain under examination by the IRS for 2010 through 2014. This income tax benefit also increased diluted EPS by \$1.44.
- 2) Free cash flow is a non-GAAP financial measure defined as cash flow from operating activities, less capital expenditures. See reconciliation of operating cash flow to free cash flow in slide appendix for more detail.

Q&A Appendix

Non-GAAP Financial Measures

Verisign provides quarterly and annual financial statements that are prepared in accordance with generally accepted accounting principles (GAAP). Along with this information, management typically discloses and discusses certain non-GAAP financial measures on investor conference calls and related events. The non-GAAP financial measures included in this presentation are Adjusted EBITDA and free cash flow.

Adjusted EBITDA is a non-GAAP financial measure and is calculated in accordance with the terms of the indentures governing Verisign's senior notes. Adjusted EBITDA refers to net income before interest, taxes, depreciation and amortization, stock-based compensation, unrealized gain / loss on hedging agreements, and gain on sale of business.

Free cash flow is a non-GAAP financial measure defined as cash flow from operating activities, less capital expenditures.

Management believes that these non-GAAP financial measures supplement the GAAP financial measures by providing investors with additional information that allows them to have a clearer picture of Verisign's operations and financial performance and the comparability of Verisign's operating results from period to period. The presentation of these non-GAAP financial measures is not meant to be considered in isolation nor as a substitute for financial measures prepared in accordance with GAAP.

The tables herein include a reconciliation of the non-GAAP financial measures to the comparable financial measures reported in accordance with GAAP for the given periods.
