Use of Non-GAAP Financial Information

Verisign provides quarterly and annual financial statements that are prepared in accordance with generally accepted accounting principles (GAAP). Along with this information, we typically disclose and discuss certain non-GAAP financial information in our quarterly earnings releases, on investor conference calls and during investor conferences and related events. This non-GAAP financial information does not include the following types of financial measures that are included in GAAP: discontinued operations, stock-based compensation, amortization of other intangible assets, impairments of goodwill and other intangible assets, restructuring charges, contingent interest payments to holders of our Convertible Debentures, unrealized gain/loss on contingent interest derivative on Convertible Debentures, and non-cash interest expense. Non-GAAP financial information is also adjusted for a 28 percent tax rate starting from the third quarter of 2012 and 30 percent for all other periods presented herein, both of which differ from the GAAP tax rate. All non-GAAP figures for each period presented in Exhibit 99.1 have been conformed to exclude the foregoing items under GAAP.

Management believes that this non-GAAP financial data supplements our GAAP financial data by providing investors with additional information that allows them to have a clearer picture of the Company’s operations. The presentation of this additional information is not meant to be considered in isolation nor as a substitute for results prepared in accordance with GAAP. We believe that the non-GAAP information enhances the investors’ overall understanding of our financial performance and the comparability of the Company’s operating results from period to period. In the press release attached hereto as Exhibit 99.1, we have provided a reconciliation of the non-GAAP financial information that we provide each quarter with the comparable financial information reported in accordance with GAAP for the given period.

Financial Highlights

- Verisign ended the fourth quarter of 2012 with Cash, Cash Equivalents, Marketable Securities and Restricted Cash of \$1.56 billion, an increase of \$211 million from year-end 2011.

- Cash flow from operations was \$171 million for the fourth quarter of 2012 and \$538 million for the full year 2012, compared with \$124 million for the same quarter in 2011 and \$336 million for the full year 2011.
- Deferred revenues ended the fourth quarter of 2012 totaling \$813 million, an increase of \$84 million from year-end 2011.
- Capital expenditures were \$13 million in the fourth quarter and \$53 million for the full year.
- During the fourth quarter, Verisign repurchased approximately 2.3 million shares of its common stock for a cost of \$94 million. During the full year 2012, Verisign repurchased approximately 7.7 million shares of its common stock for a cost of \$315 million. On Dec. 5, 2012, the Board of Directors authorized the repurchase of up to approximately \$458.8 million of our common stock, in addition to the approximately \$541.2 million of our common stock remaining available for repurchase under the previous 2010 Share Buyback Program, for a total repurchase of up to \$1.0 billion of Verisign common stock. At Dec. 31, 2012, approximately \$976 million remained available and authorized for share repurchases.
- For purposes of calculating diluted EPS, the fourth quarter diluted share count included 6.4 million shares related to the convertible debentures. These represent dilutive shares and not shares that have been issued. There was no dilution from the convertible debentures in the same quarter of 2011.
- Due to the stock price not exceeding the convertible debentures trigger during the fourth quarter of 2012, the debentures are no longer convertible starting Jan. 1, 2013. Consequently, the debt component of the convertible debentures, the related embedded derivative, and deferred tax liability were reclassified from current liabilities to long-term liabilities, while the associated unamortized debt issuance costs were reclassified from current assets to long-term assets, as of Dec. 31, 2012.

Business and Corporate Highlights

- Verisign Registry Services added 1.25 million net new names and ended the fourth quarter with 121.1 million active domain names in the zone for .com and .net, representing a 6.4 percent increase year over year.
- Verisign processed 8.0 million and 33.1 million new domain name registrations for .com and .net, representing 0.9 percent and 3.0 percent increase year over year, in the fourth quarter and full year 2012 periods, respectively.
- On Nov. 30, 2012, Verisign announced that the U.S. Department of Commerce approved the renewal of Verisign's revised agreement, on the terms described in that announcement, with the Internet Corporation for Assigned Names and Numbers (ICANN), to serve as the authoritative registry operator for the .com registry for the term commencing on Dec. 1, 2012 through Nov. 30, 2018.
- On Dec. 19, 2012, Verisign announced that as of July 1, 2013, the registry fee for .net domain names will increase from \$5.11 to \$5.62.

Non-GAAP financial results exclude the following items that are included under GAAP: Discontinued operations, stock-based compensation, amortization of other intangible assets, impairments of goodwill and other intangible assets, restructuring charges, contingent interest payments to holders of our Convertible Debentures, unrealized gain/loss on contingent interest derivative on Convertible Debentures, and non-cash interest expense. Non-GAAP financial information is also adjusted for a 28 percent tax rate starting from the third quarter of 2012, and 30 percent for the other periods presented herein, both of which differ from the GAAP tax rate. A table reconciling the GAAP to non-GAAP operating income and net income is appended to this release.

More information about potential factors that could affect the Company's business and financial results is included in Verisign's filings with the Securities and Exchange Commission, including in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.
