NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Basis of Presentation

Interim Financial Statements

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared by VeriSign, Inc. (“VeriSign” or the “Company”) in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and, therefore, do not include all information and notes normally provided in audited financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and other adjustments) considered necessary for a fair presentation have been included. The results of operations for any interim period are not necessarily indicative of, nor comparable to, the results of operations for any other interim period or for a full fiscal year. These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and related notes contained in VeriSign’s Annual Report on Form 10-K for the year ended December 31, 2025 (the “2025 Form 10-K”) filed with the SEC on February 5, 2026.

Reclassifications

Certain reclassifications have been made to prior period amounts to conform to current period presentation. Such reclassifications have no effect on net income as previously reported.

Recent Accounting Pronouncements

In November 2024, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*, which requires additional disclosure of certain costs and expenses within the notes to the financial statements. This guidance will be effective for the Company’s 2027 Form 10-K. The Company does not expect the adoption of this guidance to have a material impact on the Company’s consolidated financial statements.

In September 2025, the FASB issued ASU No. 2025-06, *Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*, which clarifies and modernizes certain aspects of the accounting for and disclosure of internal-use software costs. The ASU does not change what types of costs are capitalized or when internal-use software cost capitalization ceases. This guidance will be effective for the Company in 2028. The Company does not expect the adoption of this guidance to have a material impact on the Company’s consolidated financial statements.

Total revenues	\$ 434.6	\$ 409.9	\$ 863.5	\$ 812.2

Revenues in the table above are attributed to the country of domicile and the respective regions in which registrars are located; however, this may differ from the regions where the registrars operate or where registrants are located. Revenues for each region may be impacted by registrars reincorporating, relocating, or from acquisitions or changes in affiliations of resellers. Revenues for each region may also be impacted by registrars domiciled in one region, registering domain names in another region.

Deferred Revenues

As payment for domain name registrations and renewals are due in advance of the Company's performance, the Company records these amounts as deferred revenues. The increase in the deferred revenues balance for the six months ended June 30, 2026 was primarily driven by amounts billed in the six months ended June 30, 2026 for domain name registrations and renewals to be recognized as revenues in future periods, offset by refunds for domain name renewals deleted during the 45-day grace period, and \$679.4 million of revenues recognized that were included in the deferred revenues balance at December 31, 2025. The balance of deferred revenues as of June 30, 2026 represents the Company's aggregate remaining performance obligations. Amounts included in current deferred revenues are all expected to be recognized in revenues within 12 months,

except for a portion of deferred revenues that relates to domain name renewals that are deleted in the 45-day grace period following the transaction. The long-term deferred revenues amounts will be recognized in revenues over several years, and in some cases, up to ten years.

Note 9. Stock-based Compensation

Stock-based compensation is classified in the Condensed Consolidated Statements of Comprehensive Income in the same expense line items as cash compensation. The following table presents the classification of stock-based compensation:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(In millions)			
Cost of revenues	\$ 2.4	\$ 2.2	\$ 4.7	\$ 4.3
Research and development	3.0	2.8	6.0	5.6
Selling, general and administrative	14.0	10.9	27.8	23.5
Stock-based compensation expense	19.4	15.9	38.5	33.4
Capitalization (included in Property and equipment, net)	0.3	0.3	0.5	0.5
Total stock-based compensation	\$ 19.7	\$ 16.2	\$ 39.0	\$ 33.9

The following table presents the nature of the Company's total stock-based compensation:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(In millions)			
RSUs	\$ 13.4	\$ 12.9	\$ 26.8	\$ 25.9
Performance-based RSUs	5.2	2.4	10.1	6.2
ESPP	1.1	0.9	2.1	1.8
Total stock-based compensation	\$ 19.7	\$ 16.2	\$ 39.0	\$ 33.9

Note 10. Non-operating Income, Net

Non-operating income, net, primarily consists of interest income from the Company's surplus cash balances and marketable securities. Interest income was \$5.0 million and \$10.2 million during the three and six months ended June 30, 2026, respectively, compared to \$6.0 million and \$13.9 million during the same periods in 2025. The decrease in interest income during the three and six months ended June 30, 2026 primarily reflects the lower amounts invested in debt securities in the current period and lower interest rates on the Company's investments in debt securities compared to the prior period.

Note 11. Income Taxes

The following table presents income tax expense and the effective tax rate:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(Dollars in millions)			
Income tax expense	\$ 65.1	\$ 59.9	\$ 130.0	\$ 119.0
Effective tax rate	23 %	22 %	23 %	23 %

The effective tax rate for each of the periods in the table above differed from the statutory federal rate of 21%, due to state income taxes and U.S. taxes on foreign earnings, net of foreign tax credits, partially offset by a lower foreign effective tax rate.

Overview

We are a global provider of critical internet infrastructure and domain name registry services, enabling internet navigation for many of the world’s most recognized domain names. We help enable the security, stability, and resiliency of the Domain Name System (“DNS”) and the internet by providing Root Zone Maintainer Services, operating two of the thirteen global internet root servers, and providing registration services and authoritative resolution for the .com and .net generic top-level domains (“gTLDs”), which support the majority of global e-commerce.

As of June 30, 2026, we had 179.1 million .com and .net registrations in the domain name base. The number of domain names registered is largely driven by continued growth in online advertising, e-commerce, and the number of internet users, which is partially driven by greater availability of internet access, as well as marketing activities carried out by us and our registrars. The number of domain name registrations under our management may be negatively impacted by certain factors, including overall economic conditions, competition from country code top-level domains (“ccTLDs”), other gTLDs, services that offer alternatives for an online presence, and ongoing changes in the internet practices and behaviors of consumers and businesses. Factors such as the evolving practices and preferences of internet users, and how they navigate the internet, as well as the motivation of domain name registrants and how they will manage their investment in domain names, can negatively impact our business and the demand for new domain name registrations and renewals.

Business Highlights and Trends

- We recorded revenues of \$434.6 million and \$863.5 million during the three and six months ended June 30, 2026, which represents an increase of 6% compared to the same periods in 2025.
- We recorded operating income of \$296.3 million and \$589.9 million during the three and six months ended June 30, 2026, which represents an increase of 6% and 7%, respectively, compared to the same periods in 2025.
- As of June 30, 2026, we had 179.1 million .com and .net registrations in the domain name base, which represents a 5.1% increase from June 30, 2025, and a net increase of 3.0 million domain name registrations from March 31, 2026.
- During the three months ended June 30, 2026, we processed 12.7 million new domain name registrations for .com and .net compared to 10.4 million for the same period in 2025.
- The final .com and .net renewal rate for the first quarter of 2026 was 76.3% compared to 75.5% for the first quarter of 2025. Renewal rates are not fully measurable until 45 days after the end of the quarter.
- We generated cash flows from operating activities of \$504.0 million during the six months ended June 30, 2026, compared to \$493.8 million for the same period in 2025.
- During the three months ended June 30, 2026, we repurchased 0.7 million shares of common stock for an aggregate cost of \$196.8 million. As of June 30, 2026, there was \$666.0 million remaining for future share repurchases under

the share repurchase program. Effective July 23, 2026, the Board of Directors authorized the repurchase of common stock in the amount of \$884.2 million, in addition to the \$615.8 million that remained available for repurchases under the prior share repurchase authorization, for a total repurchase authorization of up to \$1.50 billion under the program.

- On June 26, 2026, we issued the 2026 Notes. On July 20, 2026, we used the net proceeds from the 2026 Notes and cash on hand to redeem all of our 2017 Notes.
- On July 20, 2026, the Board of Directors declared a cash dividend of \$0.81 per share of the Company's outstanding common stock to stockholders of record as of the close of business on August 19, 2026, payable on August 27, 2026.
- On July 22, 2026, we announced that the .web TLD has been delegated into the global DNS root zone, with Verisign as the designated registry operator.

Pursuant to our agreements with ICANN, we make available files containing all active domain names registered in the .com and .net registries. Further, we also make available a summary of the active zone count registered in the .com and .net registries and the number of .com and .net domain name registrations in the domain name base. The zone counts and information on how to obtain access to the zone files can be found at <https://www.verisign.com/resources/zone-file>. The domain name base is the active zone plus the number of domain names that are registered but not configured for use in the respective top-level domain zone file plus the number of domain names that are in a client or server hold status. The domain name base may also reflect compensated or uncompensated judicial or administrative actions to add or remove from the active zone an immaterial number of domain names. These files and the related summary data are updated daily. The update times may vary each day. The number of domain names provided in this Form 10-Q is as of midnight of the date reported.

Revenues

Our revenues are primarily derived from registrations for domain names in the .com and .net domain name registries. We also derive revenues from operating domain name registries and technical systems for several other gTLDs and one ccTLD, all of which are not significant in relation to our consolidated revenues. For domain names registered in the .com and .net registries, we receive a fee from registrars per annual registration that is determined pursuant to our agreements with ICANN. Individual customers, called registrants, contract directly with registrars or their resellers, and the registrars, who are our direct customers, in turn register the domain names with Verisign. Changes in revenues are driven largely by changes in the number of new domain name registrations and the renewal rate for existing registrations as well as the impact of new and prior price increases, to the extent permitted by ICANN and the Department of Commerce. New registrations and the renewal rate for existing registrations are impacted by continued growth in online advertising, e-commerce, and the number of internet users, as well as marketing activities carried out by us and our registrars. We also offer promotional incentive-based discount programs to registrars based upon market conditions and the business environment in which the registrars operate.

In November 2024, we renewed the .com Registry Agreement with ICANN, pursuant to which we will remain the sole registry operator for the .com registry through November 30, 2030. Under the .com Registry Agreement, we are permitted to increase the price of a .com domain name registration by up to 7% in each of the final four years of each six-year period. The current such six-year period began on October 26, 2024. We increased the annual registry-level wholesale fee for each new and

renewal .com domain name registration from \$9.59 to \$10.26 effective September 1, 2024. On April 23, 2026, we announced that we will increase the annual registry-level wholesale fee for each new and renewal .com domain name registration from \$10.26 to \$10.97 effective November 1, 2026. Under the .net Registry Agreement, we are permitted to increase the price of .net domain name registrations by up to 10% each year during the term of our agreement with ICANN, through June 30, 2029. We increased the annual registry-level wholesale fee for each new and renewal .net domain name registration from \$9.92 to \$10.91 effective February 1, 2024. All fees paid to us for .com and .net registrations are in U.S. dollars.

A comparison of revenues is presented below:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2026	% Change	2025	2026	% Change	2025
	(Dollars in millions)					
Revenues	\$ 434.6	6%	\$ 409.9	\$ 863.5	6%	\$ 812.2

The following table compares the .com and .net domain name registrations in the domain name base:

	June 30, 2026	% Change	June 30, 2025
.com and .net domain name registrations in the domain name base	179.1 million	5%	170.5 million

Revenues increased during the three and six months ended June 30, 2026, as compared to the same periods last year, primarily due to an increase in the domain name base as of June 30, 2026 compared to June 30, 2025 and the .com price increases.

Demand for .com and .net domain names has been primarily driven by continued internet growth and marketing activities carried out by us and our registrars. However, the demand for .com and .net domain names may be limited by competitive pressure from other TLDs and alternatives for an online presence. Additionally, changes in internet practices, consumer behavior, and global economic conditions, as well as the motivation of existing domain name registrants managing their investment in domain names, such as for resale at increased prices or for revenue generation through website advertising, may impact demand for .com and .net domain names. Our domain name base increased during the three and six months ended June 30, 2026 compared to June 30, 2025, as the positive domain name base trends that began in 2025 continued into 2026 with higher new registrations and renewal rates. Growth in the domain name base has been positively impacted by continued registrar focus on customer acquisition and engagement with our marketing programs, as well as the evolution of AI tools used in content and website creation.

Geographic revenues

We generate revenues in the U.S.; Europe, the Middle East and Africa (“EMEA”); Australia, China, Japan, Singapore, and other Asia Pacific countries (“APAC”); and certain other countries, including Canada and Latin American countries.

The following table presents a comparison of our geographic revenues:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2026	% Change	2025	2026	% Change	2025
	(Dollars in millions)					
U.S.	\$ 287.7	6%	\$ 270.5	\$ 571.1	6%	\$ 536.6
EMEA	75.9	10%	68.8	149.4	10%	135.8
APAC	47.5	4%	45.5	95.5	6%	89.9
Other	23.5	(6)%	25.1	47.5	(5)%	49.9
Total revenues	\$ 434.6		\$ 409.9	\$ 863.5		\$ 812.2

Revenues in the table above are attributed to the country of domicile and the respective regions in which our registrars are located; however, this may differ from the regions where the registrars operate or where registrants are located. Revenue growth for each region may be impacted by registrars reincorporating, relocating, or from acquisitions or changes in affiliations of resellers. Revenue growth for each region may also be impacted by registrars domiciled in one region, registering domain names in another region. Our revenue growth was generated from registrars based in the U.S., EMEA and APAC during the three and six months ended June 30, 2026, compared to the same periods in 2025.

Cost of revenues

Cost of revenues consists primarily of salaries and employee benefits expenses for our personnel who manage the operational systems, depreciation expenses, operational costs associated with the delivery of our services, fees paid to ICANN, customer support and training, costs of facilities and computer equipment used in these activities, telecommunications expense and allocations of indirect costs such as corporate overhead.

A comparison of cost of revenues is presented below:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2026	% Change	2025	2026	% Change	2025
	(Dollars in millions)					
Cost of revenues	\$ 50.0	2%	\$ 49.1	\$ 99.2	1%	\$ 98.5

Cost of revenues increased slightly during the three months ended June 30, 2026, compared to the same period last year, due to a combination of individually insignificant factors.

Cost of revenues increased slightly during the six months ended June 30, 2026, compared to the same period last year, due to a combination of individually insignificant factors, partially offset by a decrease in depreciation expenses. Although purchases of property and equipment increased in the six months ended 2026, depreciation expenses decreased by \$3.6 million due to a decrease in capital expenditures in recent prior periods.

Research and development

Research and development expenses consist primarily of costs related to research and development personnel, including salaries and other personnel-related expenses, consulting fees, facilities costs, computer and communications equipment, support services used in our service and technology development, and allocations of indirect costs such as corporate overhead.

A comparison of research and development expenses is presented below:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2026	% Change	2025	2026	% Change	2025
	(Dollars in millions)					
Research and development	\$ 27.5	7%	\$ 25.7	\$ 55.0	6%	\$ 51.7

Research and development expenses increased during the three and six months ended June 30, 2026, compared to the same periods last year, due to a combination of individually insignificant factors.

Selling, general and administrative

Selling, general and administrative expenses consist primarily of salaries and other personnel-related expenses for our executive, administrative, legal, finance, information technology, human resources, sales, and marketing personnel, travel and related expenses, trade shows, costs of computer and communications equipment and support services, consulting and professional service fees, costs of marketing programs, costs of facilities, management information systems, support services, and certain tax and license fees, offset by allocations of indirect costs such as facilities and shared services expenses to other cost types.

A comparison of selling, general and administrative expenses is presented below:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2026	% Change	2025	2026	% Change	2025
	(Dollars in millions)					
Selling, general and administrative	\$ 60.8	12%	\$ 54.4	\$ 119.4	8%	\$ 110.1

Selling, general and administrative expenses increased during the three months ended June 30, 2026, compared to the same period last year, primarily due to an increase in stock-based compensation expenses and a combination of several other individually insignificant factors. Stock-based compensation expense increased by \$3.1 million primarily due to an increase in the total projected achievement levels on certain performance-based RSU grants.

Selling, general and administrative expenses increased during the six months ended June 30, 2026, compared to the same period last year, primarily due to increases in stock-based compensation expenses, compensation and benefit expenses, and equipment and software expenses, partially offset by an increase in overhead expenses allocated to other cost types. Stock-based compensation expense increased by \$4.3 million primarily due to an increase in the total projected achievement levels on certain performance-based RSU grants. Compensation and benefits expenses increased by \$3.6 million, primarily due to higher expenses for certain employee health-insurance related benefits and annual salary increases. Equipment and software expenses increased by \$3.6 million primarily due to increases in expenses related to network security and other software services. Overhead expenses allocated to other cost types increased by \$3.2 million due to an increase in total allocable expenses.

Interest expense

Interest expense decreased slightly during the six months ended June 30, 2026, compared to the same period last year, primarily due to the period of overlap in 2025 between the issuance of \$500.0 million of 5.25% senior unsecured notes issued in 2025 (“2025 Notes”) and repayment of \$500.0 million of outstanding 5.25% senior unsecured notes issued in 2015 (“2015 Notes”).

Non-operating income, net

Non-operating income decreased during the three and six months ended June 30, 2026, compared to the same periods last year, primarily due to a decrease in interest income as a result of lower amounts invested in debt securities in the current period and a decrease in interest rates on the Company’s investments in debt securities.

Income tax expense

The following table presents income tax expense and the effective tax rate:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
(Dollars in millions)				
Income tax expense	\$ 65.1	\$ 59.9	\$ 130.0	\$ 119.0
Effective tax rate	23 %	22 %	23 %	23 %

The effective tax rate for each of the periods in the table above differed from the statutory federal rate of 21%, due to state income taxes and U.S. taxes on foreign earnings, net of foreign tax credits, partially offset by a lower foreign effective tax rate.

Liquidity and Capital Resources

The following table presents our principal sources of liquidity:

	June 30, 2026	December 31, 2025
	(In millions)	
Cash and cash equivalents	\$ 840.9	\$ 307.9
Marketable securities	193.2	272.6
Total	<u>\$ 1,034.1</u>	<u>\$ 580.5</u>

The marketable securities primarily consist of debt securities issued by the U.S. Treasury meeting the criteria of our investment policy, which is focused on the preservation of our capital through investment in investment grade securities. The cash equivalents consist of amounts invested in money market funds, time deposits and U.S. Treasury bills purchased with original maturities of three months or less. As of June 30, 2026, all of our debt securities have contractual maturities of less than one year. Our cash and cash equivalents are readily accessible. For additional information on our investment portfolio, see Note 2, “Financial Instruments,” of our Notes to Condensed Consolidated Financial Statements in Part I, Item I of this Quarterly Report on Form 10-Q.

During the three months ended June 30, 2026, we repurchased 0.7 million shares of common stock for an aggregate cost of \$196.8 million. As of June 30, 2026, there was \$666.0 million remaining available for future share repurchases under the Company’s share repurchase program. Effective July 23, 2026, the Board of Directors authorized the repurchase of common stock in the amount of \$884.2 million, in addition to the \$615.8 million that remained available for repurchases under the prior share repurchase authorization, for a total repurchase authorization of up to \$1.50 billion under the program.

In the six months ended June 30, 2026, we paid dividends of \$147.8 million. On July 20, 2026, the Board of Directors declared a cash dividend of \$0.81 per share of the Company’s outstanding common stock to stockholders of record as of the

close of business on August 19, 2026, payable on August 27, 2026. We intend to continue to pay a cash dividend on a quarterly basis, subject to market conditions and approval by the Board of Directors.

On June 26, 2026, we issued \$550.0 million of the 2026 Notes. As of June 30, 2026, we also had \$550.0 million principal amount outstanding of the 2017 Notes, \$750.0 million aggregate principal amount of outstanding 2.70% senior unsecured notes issued in 2021, and \$500.0 million principal amount outstanding of the 2025 Notes. On July 20, 2026, we used the net proceeds from the 2026 Notes and cash on hand to redeem all of our \$550.0 million aggregate principal amount outstanding of the 2017 Notes. As of June 30, 2026, we had no outstanding borrowings and \$200.0 million in borrowing capacity under our credit facility, which matures in 2028.

We believe existing cash, cash equivalents and marketable securities, and funds generated from operations, together with our ability to arrange for additional financing should be sufficient to meet our working capital, capital expenditure requirements, fund our quarterly dividend, and to service our debt for the next 12 months and beyond. We regularly assess our cash management approach and activities in view of our current and potential future needs. Our cash requirements have not changed materially since the 2025 Form 10-K.

In summary, our cash flows for the six months ended June 30, 2026 and 2025 were as follows:

	Six Months Ended June 30,	
	2026	2025
	(In millions)	
Net cash provided by operating activities	\$ 504.0	\$ 493.8
Net cash provided by investing activities	56.0	104.6
Net cash used in financing activities	(27.6)	(491.0)
Effect of exchange rate changes on cash, cash equivalents, and restricted cash	0.6	0.1
Net increase in cash, cash equivalents, and restricted cash	\$ 533.0	\$ 107.5

Cash flows from operating activities

Our largest source of operating cash flows is cash collections from our customers. Our primary uses of cash from operating activities are for personnel-related expenditures and other general operating expenses, as well as payments related to taxes, interest and facilities.

Net cash provided by operating activities increased during the six months ended June 30, 2026, compared to the same period last year, primarily due to decreases in cash paid for income taxes and cash paid for interest and an increase in cash received from customers, partially offset by an increase in cash paid to employees and vendors. Cash paid for income taxes decreased primarily due to the final installment payment for the transition tax on accumulated foreign earnings resulting from the 2017 Tax Cuts and Jobs Act in 2025. Cash paid for interest decreased primarily as a result of the final payment of interest on our 2015 Notes in 2025. Cash received from customers increased primarily due to the .com price increases and higher .com domain name registrations and renewals. Cash paid to employees and vendors increased primarily due to an increase in operating expenses and the timing of payments.

Cash flows from investing activities

The changes in cash flows from investing activities primarily relate to purchases, maturities and sales of marketable securities, and purchases of property and equipment.

Net cash provided by investing activities decreased during the six months ended June 30, 2026, compared to the same period last year, primarily due to a decrease in proceeds from maturities and sales of marketable securities, net of purchases of marketable securities, and an increase in purchases of property and equipment.

Cash flows from financing activities

The changes in cash flows from financing activities primarily relate to proceeds from and repayment of borrowings, share repurchases, dividend payments, payment of excise tax on share repurchases, and proceeds from our employee stock purchase plan.

Net cash used in financing activities decreased during the six months ended June 30, 2026, compared to the same period last year, primarily due to the proceeds from the issuance of our 2026 Notes, the net impact of the redemption of our 2015 Notes and the issuance of our 2025 Notes in 2025, and a decrease in the payment of excise tax on share repurchases, partially offset by increases in dividend payments to stockholders and increases in share repurchases.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no significant changes in our market risk exposures since December 31, 2025.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer (our principal executive officer) and our Chief Financial Officer (our principal financial officer), evaluated the effectiveness of our disclosure controls and procedures. Based on this evaluation, as of June 30, 2026, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended June 30, 2026 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Inherent Limitations of Disclosure Controls and Internal Control over Financial Reporting

Because of their inherent limitations, our disclosure controls and procedures and our internal control over financial reporting may not prevent material errors or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The effectiveness of our disclosure controls and procedures and our internal control over financial reporting is subject to risks, including that the controls may become inadequate because of changes in conditions or that the degree of compliance with our policies or procedures may deteriorate.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Disputes related to the award and delegation of the .web TLD to Verisign, including the Independent Review Process against ICANN, have been resolved. The terms of the resolution are confidential and not material to our financial statements. As a result of the resolution, the .web TLD has been awarded and delegated to Verisign.

We are also involved in various investigations, claims and lawsuits arising in the normal conduct of our business, none of which, in our opinion, will have a material adverse effect on our financial condition, results of operations, or cash flows. We cannot assure you that we will prevail in any litigation. Regardless of the outcome, any litigation may require us to incur significant litigation expense and may result in significant diversion of management attention.

ITEM 1A. RISK FACTORS

Our business, operating results, financial condition, reputation, cash flows or prospects can be materially adversely affected by a number of factors, including but not limited to those described in Part I, Item 1A of the 2025 Form 10-K under the heading "Risk Factors." In such case, the trading price of our common stock could decline and you could lose part or all of your investment. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also materially adversely affect our business, operating results, financial condition, reputation, cash flows and prospects. Actual results could differ materially from those projected in the forward-looking statements contained in this Form 10-Q as a result of the risk factors described in Part I, Item 1A of the 2025 Form 10-K and in other filings we make with the SEC. There have been no material changes to the Company's risk factors since the 2025 Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents the share repurchase activity during the three months ended June 30, 2026:

	Total Number of Shares Purchased (3)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1) (3)	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (1) (2)
	(Shares in thousands)

June 1 - 30, 2026	300	\$ 270.59	300	\$ 666.0 million
	<u>716</u>		<u>716</u>	

(1) Effective July 24, 2025, the Board of Directors authorized the repurchase of common stock in the amount of \$913.1 million, in addition to the \$586.9 million that remained available for repurchases under the prior share repurchase authorization, for a total repurchase authorization of up to \$1.50 billion under the program. The share repurchase program has no expiration date. Purchases made under the program can be effected through open market transactions, block purchases, accelerated share repurchase agreements or other negotiated transactions. Effective July 23, 2026, the Company's Board of Directors authorized the repurchase of its common stock in the amount of \$884.2 million, in addition to the \$615.8 million that remained available for repurchases under the prior share repurchase authorization, for a total repurchase authorization of up to \$1.50 billion under the program.

(2) Amounts presented are exclusive of the excise tax on share repurchases.

(3) Amounts in the table above may not sum due to rounding.

ITEM 5. OTHER INFORMATION

Insider Trading Arrangements

Our directors and executive officers may from time to time enter into plans or other arrangements for the purchase or sale of our shares that are intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or may represent a non-Rule 10b5-1 trading arrangement under the Exchange Act.

There were no directors or executive officers that adopted, terminated or modified plans or other arrangements during the quarter ended June 30, 2026.
