Non-GAAP Financial Measures and Adjusted EBITDA

Verisign provides quarterly and annual financial statements that are prepared in accordance with generally accepted accounting principles (GAAP). Along with this information, management typically discloses and discusses certain non-GAAP financial information in quarterly earnings releases, on investor conference calls and during investor conferences and related events. This non-GAAP financial information does not include the following types of financial measures that are included in GAAP: stock-based compensation, unrealized gain/loss on the contingent interest derivative on the subordinated convertible debentures, and non-cash interest expense. Non-GAAP net income is decreased by amounts accrued, if any, during the period for contingent interest payable through August 15, 2017, resulting from upside or downside triggers related to the subordinated convertible debentures, and is adjusted for an income tax rate of 25 percent starting from the second quarter of 2017, and 26 percent for the other periods presented herein, both of which differ from the GAAP income tax rate.

On a quarterly basis, Verisign also provides Adjusted EBITDA. Adjusted EBITDA is a non-GAAP financial measure and is calculated in accordance with the terms of the indentures governing Verisign's senior notes. Adjusted EBITDA refers to net income before interest, taxes, depreciation and amortization, stock-based compensation, unrealized gain / loss on the contingent interest derivative on the subordinated convertible debentures, unrealized gain / loss on hedging agreements and gain on the sale of a business.

Management believes that this non-GAAP financial data supplements the GAAP financial data by providing investors with additional information that allows them to have a clearer picture of Verisign's operations and financial performance and the comparability of Verisign's operating results from period to period. The presentation of this additional information is not meant to be considered in isolation nor as a substitute for results prepared in accordance with GAAP.

The tables appended to this release include a reconciliation of the non-GAAP financial information to the comparable financial information reported in accordance with GAAP for the given periods.
